

GRUPPO EUROMOBIL POLICY

OUR MISSION

We believe in, and promote, Italian style and design, inspired by our creativity and artisan origins. It is our desire to provide décor systems and complementary items for all the rooms in the house and contract projects that are excellent, functional and affordable.

OUR VALUES

Research and design to meet contemporary living requirements while attentively looking to the future. Our Research&Development centre is continuously experimenting and constantly improving our products.

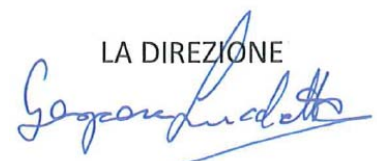

For us, each destination is a new starting point.

Each new project must be better than the last, paying the necessary attention to the environment, respecting nature, the world and those who inhabit it.

100% MADE IN ITALY

Gruppo Euromobil has a clear business vision: to keep the whole production cycle in Italy to make sure that workmanship remains accurate and scrupulous, expressing the highest standards of know-how. The group's Research&Development centre designs in collaboration with exclusive architects and designers.

The group is founded on some pivotal Made in Italy values: a family of entrepreneurs; a territory that represents a system – from the idea to the market - that is unparalleled on the international scenario and that upholds the primary importance of product quality; continuous and farsighted investments in technologies and in production plants and, last but not least, a special interest in contemporary art that can be traced back to the passion of the Lucchetta brothers.

LA DIREZIONE
A handwritten signature in blue ink, appearing to read "Guglielmo Lucchetta", written over the text "LA DIREZIONE".
