## COMPACT SIZE

AN IMPOSING PRESENCE,  
MULTI-FUNCTIONAL  
AND DECISIVE: THE NEW-  
GENERATION KITCHEN  
IS ALL ABOUT BLOCKS  
THAT ARE FLEXIBLE AND  
EASILY CHANGED OR  
MOVED AROUND. THEIR  
DESIGNS HAVE THEIR  
ROOTS IN TRADITION; THEIR  
AMBITION IS TO FURNISH  
TOMORROW'S HOMES

## STOSA

Enhanced through the use of understated colours and visually striking textures, the **Kaya** kitchen is a simple, yet original composition that provides everything needed to cook in a limited amount of space. The eye-catching dark fronts of the base units and the worktop are made of a Slate Grey oxide material, and are set against the lighter grey of the wall and tall units, which are finished in matt, thermo-structured Calix. The blue back panel has a geometric motif. The kitchen furnishings are completed by the Marte table, which is Silver Grey in colour, the Paola chairs and the matt black wall panelling on the room's right-hand wall.

## EUROMOBIL

Wood-effect surfaces, finished in thermo-structured Elm Cortex NT and in Cashmere eco-lacquerwork, produce an intimate kitchen space, whose furnishing volumes - created with the **Lain** model - are snugly juxtaposed. The base units against the wall with the washing area connect by means of a snack bar to the cooking island on metal supports, and the large overhead hood marks the division between the kitchen and living spaces. The open Puzzle Plus end element is a functional but also decorative detail. The coloured fingerrip groove and the edge of the cabinet front cut at 33° are the distinctive features of Lain: an impeccably designed, eco-friendly model that successfully makes the attractive, high-quality aspects of high-end kitchen design accessible to all. It comes in the many finishes of the Euromobil kitchens range.

# EUROMOBIL

Superfici effetto legno, finite in termostrutturato Olmo Cortex NT e in ecolaccato Cashmere, realizzano un ambiente cucina raccolto, dove i volumi dell'arredo - creato con il modello **Lain** - si giustappongono tra loro generando una soluzione avvolgente. Le basi a parete con la zona lavaggio si collegano con un piano snack all'isola cottura su sostegni metallici, mentre la grande cappa sospesa suggerisce la suddivisione tra zona cucina e area giorno. Dettaglio funzionale e decorativo, l'elemento terminale a giorno Puzzle Plus. La presa a gola colorata abbinata all'anta con bordo inclinato a 33° è il segno distintivo di Lain, modello eco-friendly dal design impeccabile, ma capace di rendere accessibile a tutti la qualità e l'estetica dei progetti di alta gamma. È disponibile nelle molteplici finiture della gamma cucine Euromobil.
